Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1,5,6,9,15-20,23-27,31,32,35,41-46,49-54 and 57-59.

Election/Restrictions

1. Applicant's election without traverse of Species a (Figs. 1-7, claims 1, 5, 6, 9, 15-20, 23-27, 31, 32, 35, 41-46, 49-54 and 57-59 in the reply filed on 5/11/2006 is acknowledged. However, Applicant's elected claims, which are restrict able because:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1, 5, 6, 9, 15-20, 23-27, 31, 32, 35, 41-46, 49-52, drawn to an optical information recording that has an identifying an information recording condition, correcting a recording pulse position, classified in class 369, subclass 47.53.

II. Claims 53-54 and 57-59, drawn to an optical information recording medium contains a plurality of correction tables, classified in class 369, subclass 59.11.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because in the invention II does not require an identification step or to form a recording mark in a predetermined position. The subcombination has separate utility such as with a system, not using identifying an information recording condition.

Art Unit: 2627

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to VAN T. PHAM whose telephone number 571-272-7590. The examiner can normally be reached on Monday-Friday.
